

CASE STUDY

Cygilant Provides Bristol Community College with Threat Detection and Prevention Services

BRISTOL COMMUNITY COLLEGE

Industry

- Education

Challenge

- Identify and prevent cybersecurity threats
- Cost-effectively manage security

Solution

- Cygilant Managed Detection and Response

Result

- Full visibility into network security
- Affordable access to a full suite of SIEM resources
- Expertise to understand security posture

As a learning resource for education and workforce development in southeastern Massachusetts, Bristol Community College (BCC) provides programs with a strong foundation in liberal arts and sciences and an emphasis on practical, employment-oriented education in allied health, engineering and technology, and business. BCC also offers comprehensive developmental education and adult literacy services in a learner-centered, supportive community.

To address its cyber security requirements, BCC selected Cygilant's Security-as-a-Service to provide 24x7x365 security monitoring and incident analysis for its most critical assets. The innovative security-as-a-service model allows affordable access to a full suite of SIEM resources, and cyber security expertise. "It's a terrific solution for us," said Steven Frechette, Information Security Officer, Bristol Community College.

"Cygilant allows us to gain full visibility into our network at a very attractive price point."

- Steve Frechette, BCC

"Cygilant's service model really works for us," said Shawn Tivnan, Assistant Director, Web Services and Technology Training, Bristol Community College. "To protect our infrastructure we needed a SIEM tool and expert services to understand the information that comes out of it. With Cygilant, we get both in a single package."

Managed Detection and Response (MDR)

24/7/365 threat detection, compliance monitoring and SIEM and Log Management through a cloud-based SOC-as-a-Service. Customers get curated actionable alerts which we've investigated, and we provide remediation guidance.

About Cygilant

Cygilant Inc. delivers Cybersecurity-as-a-Service to mid-sized organizations that have limited IT resources yet require 24x7x365 protection. Through its SOC and dedicated Cybersecurity Advisors that extend a customer's IT team, Cygilant provides affordable cloud-based security monitoring that hunts for threats, responds to incidents, patches systems and supplies audit artifacts for compliance mandates.
