

CASE STUDY

# Cygilant Helps C5 Solutions Mitigate Cybersecurity Threats and Comply with FINRA

## Industry

- Financial services

## Challenge

- Mitigate cyber attacks
- Protect customer data
- Meet FINRA compliance requirements

## Solution

- Cygilant Managed Detection and Response

## Result

- Access to highly trained security analyst expertise that C5 doesn't have in-house
- Protect company with centralized security intelligence
- Evidence of improved security posture for FINRA compliance

C5 Solutions for Broker Dealers offers Broker Dealers Commissions, Compliance, Workflow, and Imaging Software solutions to the financial services industry.

C5 Solutions uses Cygilant to help clients meet FINRA mandates and regulations and to mitigate the potential for cyber-attacks that may compromise customer data. Cygilant helps the company to minimize false positives and provides unparalleled analytics and security metrics.

"Cygilant allows us to help our clients meet complex compliance mandates," said Rod Lueck, President, C5 Solutions for Broker Dealers. We don't just get to say we're improving our security posture – we get to prove it."

Cygilant is serving as C5 Solutions' IT security department. By helping the company meet compliance requirements and by providing continuous monitoring that will keep its corporate and customer data secure, C5 Solutions can focus on creating great products for its customers.

### Managed Detection and Response (MDR)

24/7/365 threat detection, compliance monitoring and SIEM and Log Management through a cloud-based SOC-as-a-Service. Customers get curated actionable alerts which we've investigated, and we provide remediation guidance.

*"Cygilant's highly trained analysts provide the expertise we don't have in-house, and its security operations and analytics platform protects our company and centralizes all of our security intelligence."*

-Rod Lueck, C5 for BrokerDealers

## About Cygilant

Cygilant Inc. delivers Cybersecurity-as-a-Service to mid-sized organizations that have limited IT resources yet require 24x7x365 protection. Through its SOC and dedicated Cybersecurity Advisors that extend a customer's IT team, Cygilant provides affordable cloud-based security monitoring that hunts for threats, responds to incidents, patches systems and supplies audit artifacts for compliance mandates.
