

CASE STUDY

# Mortgage Investors Uses Cygilant to Protect Customer Data and Comply With GLBA

## Industry

- Financial Services

## Solution

- Cygilant Managed Detection and Response

## Result

- Monitor all perimeter devices and alert MIG to unusual activity
- Comply with Gramm-Leach Bliley Act
- Protect customer data

*“Cygilant Security-as-a-Service assists us in keeping our environment safe and secure.”*

**- Micah Bennard,**  
Mortgage Investors Group

Mortgage Investors Group (MIG) is committed to helping Tennesseans fulfill their dreams of homeownership. The company has served more than 115,000 clients in excess of \$18 billion since co-founders Chuck Tonkin II and Chrissi Rhea opened a modest lending office in Knoxville, Tennessee, in 1989 with five colleagues. Today, MIG has grown to nearly 400 employees in 25 branch locations from Memphis to the Tri-Cities.

Mortgage Investors Group selected Cygilant Managed Detection and Response to monitor all of its perimeter devices and alert MIG when any unusual activity occurs. MIG uses Cygilant to help protect customer data and to simplify compliance with the Gramm-Leach-Bliley Act (GLBA).

“We are very pleased to have partnered with Cygilant,” said Micah Bennard, IT Infrastructure Manager of Mortgage Investors Group. “Cygilant Security-as-a-Service assists us in keeping our environment safe and secure.”

## Managed Detection and Response (MDR)

24/7/365 threat detection, compliance monitoring and SIEM and Log Management through a cloud-based SOC-as-a-Service. Customers get curated actionable alerts which we've investigated, and we provide remediation guidance.
